

Limousin

MAK EBA GD

N° FR 72 61 00 40 95
Born 19/03/16

Cow-calf breeder : GAEC BRILLAND (72)
Owner : GENES DIFFUSION

Recommended and secured combination

- Bull of a mixed type with several breeding traits, he has nice long and thick top line welded to shoulders with pretty voluminous and large rumps. His depth of rib, perfect frame and his wide and deep hindquarters make MAK EBA GD a nice type of Limousin bull.
- His very complete and highly appreciated pedigree presents a real guarantee thanks to the accumulation of ascendants recommended and recognized for their production qualities : VOILIER MN / ULYS MN / OTAN / ELEAZAR / GENIAL / DAUPHIN
- His dam qualified RRE (Recommended Elite Reproducer), classified 110 in AVel (calving ease), 109 in ALait (calving ability) and 120 in IVMAT (Total Merit Index for direct and maternal effect at weaning) is a daughter of the famous EBA CREOLE (dam of GAULOI EBA) from the BRILLAND breeding.
- Already impressive by his phenotype at weaning, MAK EBA GD confirms his status as a crucial bull by his reassuring genomic evaluation at birth as well as by his interesting evaluation of maternal traits.

Index

gIBOVAL LI.PF.17.2

Birth ease	Growth capacity	Muscle development	Frame development	Bone slimness	Total merit index for direct effect at weaning	Calving ability of the female	Maternal genetics on weaning weight	Total merit index for direct and maternal effect at weaning	Carcass Growth	Carcass Conformation	Total merit index for beef ability
