Origin : Lionel SAUZE –
SCEA LA GARANDELIERE (79)
Owner : GENES DIFFUSION

Non-carrier of Axonopathy

Powerful lineage

- JOYENOEL GD labels his progeny by a great morphological regularity and by high level of sustained growth.
- His offspring is characterized by beautiful lengths, nice topline well covered in meat, open and followed rumps as well as beautiful blonde lines.
- He is a son of the famous FAISAN and of the best breeding line of Lionel Sauze (79) which combines MORPHOLOGY, PRODUCTION and FERTILITY:
 - Embellie : MTE, ISU 120, 6 calvings and 357 days of calving interval
 - Ugandie : MTE, ISU 114, 11 calvings and 385 days of calving interval
 - Organdie : MTE, ISU 115, 16 calvings and 377 days of calving interval
- To use JOYENOEL GD means to improve your herd whatever the type of production !

Ourson – son of JOYENOEL GD – 50 days
